SHIPPING NOTES.

The Haleakala brought 400 bags of sugar.

The M. E. Smith is 25 days from Port Townsend. She comes here from Mahukona. She is loaded to the water's edge with lumber for Weller & Co. She brings 454,000 ft lumber and 82,500 shingles.

H. B. M. S. Sappho was alongside the steamer wharf yesterday coaling. She leaves here probably on Tuesday or Wednesday, if no contrary orders come by the mail.

The Martha Davies hauled up yesterday opposite the Custom-House. She leaves on Tuesday for Hong Kong.

The Ella may be expected from San Francisco shortly.

The Amy Turner of C. Brewer and Co's Boston line of packets is to leave Boston on the 18th of next month.

D. C. Murray was to leave San Francisco on the 14th, and may be expected any moment.

The Iolani is due any day.

The Dakota left New Castle with coal for Honolulu about the 1st.

The Mokofii had fine weather in making her circuit of Oahu. She goes round again on Monday.

Mr. Ellis has sold 100 shares of Waianae stock at \$133.

Free Rum: What are you going to do about it? will be Mr. Cruzan's theme Sunday evening.

Just step up and see that lady and her four sons in the window of Waterhouse's store, No. 10 Fort st.

Yesterday morning, Fort Street was blocked for ten minutes or so to all carriage traffic.

There was much furious riding on Beretania street on Thursday evening.

We hear there are no less than three people in the Government service who have not taken the oath of allegiance.

It appears it has always been customary to keep the servants of the gaoi official in plain clothes under previous Governors.

It was rumored, on good authority, yesterday, that the Minister of Finance would leave the Ministry last night, and a prominent financier take his place.

The Corner Stone of the Y. M. C. A's building was of Waianae granite. The sail on the floor and the awning were kindly supplied by Mr. A. F. Cooke.

We hear that the licenses under the new liquor law will not be issued till late on Monday, the 2nd, so that liquor will not be sold to the natives till Tuesday.

The Alaska Minstrels will give a performance to-night in the Music Hall. The programme is lengthy and varied and we trust all our friends will go and enjoy a good laugh.

A native was found last night near Kapena fall hanging to the limb of a tree with his throat cut. It appears he was missing from his home about a week.

Chief Justice A. F. Judd, the Chancellor of the Kingdom, visited the Alaska yesterday morning. He received on leaving a salute of 19 guns.

The road makai of the Park is in a disgraceful condition, but we suppose the Government will continue to tax people for roads and allow them to remain unattended to.

The Honolulu Iron Works is very busy just now. They are just finishing three boilers, two engines and double gearing for the mill of the Waihee Sugar Co.

A memorial service conducted by Prof. A. Pratt will be held at the vestry of Fort street Church, Sunday evening, at 5:30. Special music will be provided.

How often are we to speak and write about the pernicious practice of private vehicles being left standing in front of shops in Fort and other busy streets without anybody to look after them!

Yesterday, at the Police Court, two Chinese expressmen were each fined \$5 and \$1 costs, for leaving their hacks standing in the street without a driver. Already the new inspector of licensed vehicles has begun his good work.

The Hon. S. G. Wilder gave a grand dinner party to His Ex. R. M. Daggett on Thursday evening. The British and French Commissioners, Captains Belknap and Clark, and many of our chief citizens were present. No speeches, but a most enjoyable evening was spent.

To show the value of advertising in the BULLETIN, Mr. E. P. Adams states that over 40 persons came in after reading the California Manufacturing Co.'s adv, and inquired for "souniges," it being a misprint for "lounges."

Prof. YARNOLD will, on his return from the other islands next week, where he has been on a professional trip, we understand, form classes for teaching vocal music, both for solos and parts, and the art of sight reading. The Professor is, we believe, capable of giving the greatest satisfaction in this line, his testimonials show that he has done so elsewhere.

On Monday last, a meeting of riflemen was held, at which an association, called the "Honolulu Rifle Association," was formed. His Majesty was elected President, and C. P. Iankea, Secretary. As the result of this a rifle match was held yesterday afternoon at the Park, between a picked team from the Alaska and another from the members of the Association. There were eight on each side, and the Alaska's team scored 246 and the H.R.A. 205, so that the Alaska won by 41 points. We publish a full score for each man on Monday.

We were shown on Thursday morning a most peculiar looking reptile, about 12 inches long, of a pinkish color, and tapering at both ends—resembling in fact an elongated earthworm. A woman named Kamaka, residing on Rose Lane, on awaking early that morning, felt some thing in her mouth, and putting her hand in pulled the creature out. These things are, we are informed by a medical man, not common, but still not unusually rare.

HOODLUMS on Beretania street, out of town, should be looked after by the police. Along the line of the tramway which is being laid, barricades were piled along the middle of the street for a long distance on Thursday night. Fence posts were stacked in the street, and empty boxes and iron railroad ties were placed so as to obstruct the road. Tracks of bare feet indicated from their size and shape that native hoodlums were the culprits.

Mr. KOHLER's Waxwork Exhibition and Promenade Concert opens on Monday at the New Music Hall. The criticisms of the Australian press speak of the wax figures as works of art, especially those of H. B. M. Queen Victoria, the Right Hon. W. E. Gladstone, Parnell and Davitt, the Irish agitators, &c. In Mr. J. W. Kohler, we have, no doubt, a treat in store in the musical line, as he is highly spoken of both in California and Australia. He plays most musical instruments, some of which have never been heard here before. The Hydrovirophone is simply our old friend, the musical glasses, under a new name. The ocarina is a new instrument simply made out of a piece of clay, shaped like an egg. It is celebrated for its purity and beauty of tone. We have, no doubt, the entertainment will be well patronized, as it deserves.
